SUMMARY

Software Developer with expertise in **React.js, Next.js, TypeScript, and Node.js**, passionate about building **scalable, user-friendly applications**. Strong problem-solving skills with experience in **full-stack development, system design, and team collaboration** to deliver high-quality solutions.

EXPERIENCE

Frontend Blockchain Intern

EliteKods

March 2024 – May 2024, Remote

- Developed and integrated **front-end components** for blockchain applications using **Next.js, TypeScript, and Tailwind CSS**.
- Collaborated with a **10+ member cross-functional team**, ensuring seamless integration with Web3 APIs and backend services.
- Optimized UI performance, **reducing page load times and improving responsiveness**.
- Utilized third-party JavaScript libraries to enhance feature sets and maintain code consistency across 3+ blockchain projects, leading to a 15% improvement in development speed.

PROJECTS

AI Mock Interview Web App

[gemini-ai-mock-interview.vercel.app](#) • March 2025 – March 2025

- Built an **AI-powered interview simulation platform** using **Next.js, TypeScript, and Tailwind CSS**.
- Implemented **real-time question generation and feedback**, enhancing user experience for job seekers.
- Optimized **state management and API integrations**, ensuring smooth interactions and minimal latency.

Interactive Quiz Platform

[quiz-app-frontend-prabhat.vercel.app/](#) • October 2024 – October 2024

- Built a **full-stack quiz platform** using **React.js (frontend) and Node.js with Express (backend)** to deliver seamless quiz experiences.
- Designed a **responsive and user-friendly interface**, improving accessibility and engagement.
- Implemented **dynamic quiz generation, user authentication, and performance tracking**, enabling personalized learning.
- Optimized **MongoDB indexing and query handling**, ensuring **efficient data management and scalability**.

EDUCATION

Bachelor of Technology – BTech, Computer Science

Galgotias University • Greater Noida • May 2026

Senior Secondary Education

Don Bosco High School • Siwan, Bihar • April 2022 • 78.4

Higher Secondary Education

Mahaviri Saraswati Vidya Mandir • Siwan, Bihar • March 2020 • 84.2

ACHIEVEMENTS

Achievements

- Developed a prototype at the **NASA Space Apps Challenge** and contributed to **Google Developer Group** events through community-driven projects and workshops.
- Participated in **4+ hackathons**, gaining hands-on experience in **AI/ML and cloud technologies**, and building an object detection model.
- Solved **200+ DSA problems in C++**, enhancing problem-solving and algorithmic thinking

SKILLS

- Programming Languages:** C++, JavaScript, TypeScript, Python
- Frontend:** React.js, Next.js, Redux, Tailwind CSS
- Backend:** Node.js, Express, MongoDB, SQL
- Tools & Platforms:** Git, GitHub, Vercel
- Other Skills:** System Design, Problem Solving, UI/UX Principles
