Education

Galgotias University

B.Tech in Computer Science and Engineering (AI&ML)

June 2022 – June 2026

CGPA: 8.18

Experience

Associate Software Engineer

MAQ Software India Limited

Noida

Nov 2025 – Sept 2026

- **Independently owned and delivered** user stories end-to-end for a client-facing **React + ASP.NET Core** data visualization application used by a **30+ member enterprise marketing team**.
- Developed and enhanced **C# backend APIs** and business logic, integrating **Microsoft Fabric** lakehouse data into application workflows and analytics.
- Implemented **multiple agentic AI use cases** for natural language data analysis and report generation, achieving **80%+ accuracy** against validated data.
- Developed and maintained **6+ Microsoft Fabric pipelines, notebooks, and data workflows** supporting enterprise reporting and analytics.
- Independently conducted **3 technical spikes** to evaluate architecture, tooling, and implementation approaches before development.

Frontend Blockchain Intern

EliteKods

Remote

March 2024 – May 2024

- Developed responsive UI designs and frontend components for **blockchain-based** web applications.
- Integrated **Web3 APIs** and blockchain services to enable on-chain functionality within the frontend.
- Implemented **smart wallet connections** and wallet-based authentication for seamless Web3 user interactions.
- Integrated frontend applications with external APIs and backend services, ensuring reliable data flow across features.
- Debugged and optimized production features in collaboration with engineering teams.

Projects

Collaborative Whiteboard [Live Demo](#) [↗](#)

- Built a **real-time collaborative whiteboard** using **Next.js, React, and TypeScript**.
- Implemented real-time collaboration, shared cursors, drawing tools, layers, and canvas controls.
- Integrated **Clerk, Liveblocks, and Convex** for authentication, synchronization, and persistent data.
- Developed responsive canvas features including shapes, text, selection, pan, and zoom.

Full Stack Quiz Application [Live Demo](#) [↗](#)

- Designed **RESTful APIs** for quizzes, users, and leaderboards with **JWT auth and RBAC**.
- Supported **50+ concurrent users** via optimized queries and indexing; scalable **MongoDB** schemas.
- Integrated **Gemini AI** for quiz generation and answer explanations.
- Added an **XP-based gamification system** to reward user progress.

Technical Skills

Languages: C++, C, C#, JavaScript, TypeScript

Backend: ASP.NET Core, Node.js, Express, REST APIs

Databases: SQL Server, PostgreSQL, MongoDB, SQL

Frontend: React, Next.js, Tailwind CSS

Cloud & Data: Microsoft Azure, Microsoft Fabric, Databricks, Azure Data Factory

Tools & Platforms: Git, GitHub, Vercel, Azure DevOps

Achievements & Certifications

- **Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)**
- **Microsoft Certified: Fabric Data Engineer Associate (DP-700)**
- **Microsoft Certified: SQL AI Developer Associate (DP-800)**
- **Coding Profile:** 500+ Problems Solved | LeetCode - 1780 | Codeforces - 938
